C LaVie

Colin LaVie gives notice that he will ask the Minister responsible for Transportation and Energy the following question:

I have two intersections in my district which are very dangerous. Both of these intersections are in Fortune on Route 2. Can the Minister commit to looking at and fixing these two intersections to ensure safety is the number one priority?

On route 310 there is a ninety degree turn which is very dangerous. There have been numerous accidents in the past at it. A resident who lives on the turn is scared to park his vehicles in his driveway for fear of them being struck. Can the Minister contact me and look at this dangerous turn to fix the road?
