

MacEwen
22.11.18 RR

Sidney MacEwen gives notice that he will ask the Minister of Education, Early Learning and Culture the Following question:

Does the Public Schools Branch have cleaning/sanitizing standards in place for surfaces and fixtures which may include water fountains, light switches, sink taps, and door knobs to help prevent the spread of illness and disease and support the health of student?

Date Submitted: November 20, 2018

Sidney MacEwen gives notice that he will ask the Minister of Education, Early Learning and Culture the Following question:

When school custodian allocations are being determined, is daily and weekly sanitizing considered along with general cleaning?

Date Submitted: November 20, 2018

Sidney MacEwen gives notice that he will ask the Minister of Education, Early Learning and Culture the Following question:

Should custodian allocations be revised for the number of students instead of the square footage of a particular school? Should the age of the students also be considered a factor in allocation as younger students spend more time outdoors for recess and various activities thus tracking in dirt to the school?
