Questions on Thursday, April 12/18:

How many lobster buyer licenses were sold over the last five years?

- These numbers represent the number of “buying stations”. Depending on demand, each buying company can, and often does, change the harbours where they operate.

- 2013 - 174
- 2014 - 178
- 2015 - 188
- 2016 - 219
- 2017 - 192

Are there any scientific research studies on the impact of oyster cages in Rustico Bay? Or any studies in general?

- There is not a study specific to Rustico Bay, but there are many peer reviewed studies on the positive impact of oyster culture on water quality. *and I provided those studies to member from Rustico Emerald.*
