PETITION

FLOATING BRIDGE REPAIR

~~May, 2018~~
~~December, 2016~~

To: HON. PAULA J. BIGGAR
MINISTER of TRANSPORTATION, INFRASTRUCTURE AND ENERGY

As property owners and users of the Floating Bridge Road, we request that this closed Bridge be repaired and be usable ^{until} for the 2017 season. ^{Since the closure} For the past year we have been greatly inconvenienced with extra travel to access our properties and to drive to our destinations. This closure has meant extra time to travel and substantial extra cost for fuel.

Floating Bridge is a scenic destination for recreational users of MacLure's Pond. The dock, next to the Bridge is used by boaters and anglers. The nearby boat launch is very important for fishers and recreational users. MacLure's Pond is the largest body of fresh water on PEI and this resource is being hurt by this closure.
