

A. Roach
19.4.18
CM

To the Premier, the MAyor and all MLAs

This attached petition was an action that a group of concerned persons who met during Earth Hour on March 24, 2018 signed up to support. After a considerable discussion about plastic garbage in our province and in the world's oceans and waterways, we decided to approach government with this petition around Earth Day April 22.

What a delight to read in Wednesday's Guardian about the proposal brought forth by your government in this regard. It would be truly wonderful and environmentally sound to eliminate single-use bags from grocery stores in our province. The city of Montreal has already moved in this direction as of Jan. 1, 2018.

Thanks to Allen Roach for moving in this direction. In eco-spiritual circles this is called an environmentally virtuous decision. You have our support and prayers as this motion moves forward to become an act of legislation.

PETITION REGARDING PLASTICS.

Premier Wade MacLauchlan
 Minister of Community, Land and Environment , Hon Richard Brown
 Mayor of Charlottetown- Hon. Clifford Lee

EARTH HOUR ACTION PIECE, March 24, 2018

We, the undersigned, are very concerned about the more than 100 tonnes of plastic refuse that is currently being stockpiled on PEI because of a lack of market. This may be a short-term measure, caused by the decision by China to stop accepting North American plastics. However it dramatically highlights the extreme amount of plastic that Islanders discard. We would like to recommend that provincial and municipal governments consider a **ban on single-use thin plastic bags**, similar to that in place in Montreal as of Jan. 1, 2018. We can be leaders on this issue, and a model of sustainability.
